Este aviso contiene información muy importante sobre su agua potable. Para una copia en español, favor de llamar al sistema de agua (510) 544-2328

Piedmont Stables Water System – March 31, 2025

BOIL WATER NOTICE

Boil Your Water Before Drinking or Food Preparation to Avoid Illness

This drinking water system relies on a water source that is affected by surface water and requires additional treatment process(es) before it is considered safe to drink. Therefore, the State Water Resources Control Board, Division of Drinking Water, the Alameda County Health Department, and the Piedmont Stables Water System are advising residents of this drinking water system to only use boiled tap water or bottled water for drinking and cooking purposes as a safety precaution to avoid stomach or intestinal illness. The affected area includes the Piedmont Stables Residence, Piedmont Stables and Albanese Offices.

When it was determined that the system was under the influence of surface water and additional treatment needed, potable water was imported (April 3, 2024, to March 31, 2025) and therefore a boil water notice was not required for that period.

If you have questions about other uses of tap water, such as bathing and dish washing, please call your water system or read this guidance: <https://www.cdc.gov/healthywater/emergency/dwa-comm-toolbox/before/tools/What-to-Do-During-a-Boil-Water-Advisory.docx>

Potable water is available at the Reinhardt Redwood Park, 7867 Redwood Road, Oakland, CA 94619

Do not drink the water without boiling it first

- Boil all water for one (1) minute (rolling boil).
- Let water cool before drinking.
- Use boiled or bottled water for drinking, brushing teeth, and food preparation until further notice.
- Boiling water kills bacteria and other organisms in the water.

If you are unable to boil your water:

Household unscented liquid bleach

- For clear water, use 8 drops (1/8 tsp.) of bleach for 1 gallon of water. For cloudy water, filter through a clean cloth and use 16 drops (1/4 tsp.) of bleach for 1 gallon of water.
- Mix well. Allow to stand for 30 minutes before using.
- Water may taste or smell like chlorine. This means disinfection has occurred.

Water disinfection tablets

- Please follow the manufacturer's instructions.

For More Information

If you are concerned about your health or the health of a family member, contact your health care provider or Alameda County Environmental Health.

State Water Resources Control Board District Office: (510) 620-3474

Local Environmental Health Jurisdiction: Alameda County at (510) 567-6700

If you have questions about the operation of the system, please contact:

East Bay Regional Park District Water Utility contact: Hal MacLean (510) 544-2328
